Veteran Identification Cards via Delaware DMV
 Veterans ID cards are being issued by the Delaware Division of Motor Vehicles. This card is available to any Delaware veteran that served in the U. S. military and was honorably discharged. The cards are free of charge. To obtain the card, veterans must have a valid Delaware driver license or ID card and provide proof of military service, such as: Military ID / DD 214

The Veteran Id cards are designed to verify an individual as a veteran in the State of Delaware, so that businesses can opt to recognize the contributions of those veterans who have faithfully served our country and represented our great state. It will also afford the veteran protection as they will no longer have to carry a DD-214, which contains sensitive information, to prove their veteran status in order to obtain the benefits provided by local businesses.

Please note that this card is not a military ID card and does not entitle veterans to all military benefits. Veterans would need to contact the U.S. Dept. of Veterans Affairs (VA) to determine the federal benefits in which they are entitle. *Also, some business only offer discounts/benefits during certain military holidays/events such as Veterans Day/Memorial Day.*

Veterans Health Identification Card:

Purpose of the VHIC: The VHIC is for identification and check-in at VA appointments. It cannot be used as credit card or an insurance card and it does not authorize or pay for care at non-VA facilities.

How to Receive a VHIC: The VHIC is issued only to Veterans who are enrolled in the VA health care system. If you are not enrolled, you may apply for enrollment online at www.va.gov/healthbenefits/enroll or by calling 1-877-222-VETS (8387) Monday – Friday from 8 am- 8 pm ET. You may also apply for enrollment in person at your local VA medical facility. Once your enrollment is verified, you may have your picture taken at your local VA medical center, so that a VHIC can be mailed to you. We will mail you a Veterans Health Benefits Handbook and you will also receive a call welcoming you to the VA, typically with 5-7 days after your enrollment verification. (*List of VA medical facilities in Delaware- page 16.*)

Disability Compensation is a tax free monetary benefit paid to Veterans with disabilities that are the result of a disease or injury incurred or aggravated during active military service. Compensation may also be paid for post-service disabilities that are considered related or secondary to disabilities occurring in service and for disabilities presumed to be related to circumstances of military service, even though they may arise after service. Generally, the degrees of disability specified are also designed to compensate for considerable loss of working time from exacerbations or illnesses.

Dependency and Indemnity Compensation (DIC) is a tax free monetary benefit generally payable to a surviving spouse, child, or parent of Service members who died while on active duty, active duty for training, or inactive duty training or survivors of Veterans who died from their service-connected disabilities. DIC for parents is an income based benefit.

Special Monthly Compensation (SMC) is an additional tax-free benefit that can be paid to Veterans, their spouses, surviving spouses and parents. For Veterans, Special Monthly Compensation is a higher rate of compensation paid due to special circumstances such as the need of aid and attendance by another person or a specific disability, such as loss of use of one hand or leg. For spouses and surviving spouses, this benefit is commonly referred to as aid and attendance and is paid based on the need of aid and attendance by another person. What is the Vocational Rehabilitation and Employment Program?

The Vocational Rehabilitation and Employment Program (VR&E) is authorized by Congress under Title 38, USC, Chapter 31 and Code of Federal Regulations, Part 21. It is sometimes referred to as the Chapter 31 program. This program assists Veterans with [service-connected disabilities](#) to prepare for, find, and keep suitable jobs. For Veterans with service-connected disabilities so severe that they cannot immediately consider work, this program offers services to improve their ability to live as independently as possible.

Services that may be provided by the VR&E Program include:

VA Home Loan

VA offers a variety of home loan guaranty programs for Active Duty Service members, Veterans, and National Guard and Reserve members.

Purchase Loans help you purchase a home at a competitive interest rate often without requiring a down payment or private mortgage insurance. Cash Out Refinance loans allow you to take cash out of your home equity to take care of concerns like paying off debt, funding school, or making home improvements.

Interest Rate Reduction Refinance Loan (IRRRL): also called the Streamline Refinance Loan can help you obtain a lower interest rate by refinancing your existing VA loan.

Native American Direct Loan (NADL) Program: helps eligible Native American Veterans finance the purchase, construction, or improvement of homes on Federal Trust Land, or reduce the interest rate on a VA loan.

Adapted Housing Grants: help Veterans with a permanent and total service-connected disability purchase or build an adapted home or to modify an existing home to account for their disability.

Life Insurance

Service members' Group Life Insurance (SGLI) is a low-cost group term life insurance program for Service members. Coverage can be extended for up to two years if the Service member is totally disabled at separation.

Veterans' Group Life Insurance (VGLI) allows Veterans to convert your SGLI to a civilian program of lifetime renewable term coverage after separation from service.

Family Service members' Group Life Insurance (FSGLI) insures spouses and children of Service members with SGLI coverage. Spousal coverage may not exceed the Service member's coverage. Dependent children are automatically covered at no charge.

Service members' Group Life Insurance Traumatic Injury Protection (TSGLI) is an automatic feature of SGLI that provides payments to Service members who suffer losses, such as amputations, blindness, and paraplegia, due to traumatic injuries that occur in service.

Service-Disabled Veterans' Life Insurance (S-DVI) provides life insurance coverage to Veterans who have been given a VA rating for a new service-connected disability in the last two years. Totally disabled Veterans are eligible for free coverage and have the opportunity to purchase additional life insurance.

Veterans' Mortgage Life Insurance (VMLI) provides mortgage life insurance protection to disabled Veterans who have been approved for a VA Specially Adapted Housing (SAH) grant.

Pension Benefit Programs

Generally, a Veteran must have at least 90 days of active duty service, with at least one day during a [wartime period](#) to qualify for a VA Pension. If you entered active duty after September 7, 1980, generally you must have served at least 24 months or the full period for which you were called or ordered to active duty (with some exceptions), with at least one day during a [wartime period](#).

In addition to meeting minimum service requirements, the Veteran must be:

- Age 65 or older, **OR**

Burial Benefits

Burial in a Private Cemetery: Burial benefits available for Veterans buried in a private cemetery include a [Government headstone or marker](#), a [burial flag](#), and a [Presidential Memorial Certificate](#). Some Veterans may also be eligible for [Burial Allowances](#). There are not any benefits available to spouses and dependents buried in a private cemetery.

Burial Flags: A United States flag is provided, at no cost, to drape the casket or accompany the urn of a deceased Veteran who served honorably in the U. S. Armed Forces. It is furnished to honor the memory of a Veteran's military service to his or her country. VA will furnish a burial flag for memorialization for each other than dishonorable discharged. VA Form 27-2008, Application for United States Flag for Burial Purposes. You may get a flag at any VA regional office or U.S. Post Office. Generally, the funeral director will help you obtain the flag.

Headstone or Marker: When burial or memorialization is in a national cemetery, state veterans' cemetery, or military post/base cemetery, a headstone or marker will be ordered by the cemetery officials based on inscription information provided by the next of kin or authorized representative. For burial in a private cemetery VA Form 40-1330, Application for Standard Government Headstone or Marker, must be submitted to request a memorial marker.

Presidential Memorial Certificates: A Presidential Memorial Certificate (PMC) is an engraved paper certificate, signed by the current President, to honor the memory of honorably discharged deceased Veterans. Eligible recipients include the next of kin and loved ones of honorably discharged deceased Veterans. More than one certificate may be provided. Eligible recipients, or someone acting on their behalf, may apply for a PMC in person at any VA regional office or by U.S. mail or toll-free fax. Requests cannot be sent via email. Please be sure to enclose a copy of the Veteran's discharge and death certificate to verify eligibility, as we cannot process any request without proof of honorable military service. Please submit copies only, as we will not return original documents (VA Form 40-0247 Application for Presidential Memorial Certificate).

Burial Allowances: VA burial allowances are partial reimbursements of an eligible Veteran's burial and funeral costs. When the cause of death is not service related, the reimbursements are generally described as two payments: (1) a burial and funeral expense allowance, and (2) a plot or interment allowance.

You may be eligible for a VA burial allowance if:

If the Veteran is buried in a VA national cemetery, some of all of the cost of transporting the deceased may be reimbursed.

**Military Funeral Honors - "Honoring Those Who Served"**

The Department of Defense (DOD) is responsible for providing military funeral honors. "Honoring Those Who Served" is the title of the DOD program for providing dignified military funeral honors to Veterans who have defended our nation. Upon the family's request, Public Law 106-65 requires that every eligible Veteran receive a military funeral honors ceremony, to include folding and presenting the United States burial flag and the playing of Taps. The law defines a military funeral honors detail as consisting of two or more uniformed military persons, with at least one being a member of the Veteran's parent service of the armed forces. The DOD program calls for funeral home directors to request military funeral honors on behalf of the Veterans' family. However, the Department of Veterans Affairs (VA) National Cemetery Administration cemetery staff can also assist with arranging military funeral honors at VA national cemeteries. Veterans' organizations may assist in providing military funeral honors.

In Delaware, your Funeral Director can make the arrangements for Military Funeral Honors. If you prefer an active duty component, the Funeral Director will contact the appropriate service department to make the arrangements. Several Veteran Service Organizations (e.g. VFW, American Legion) throughout Delaware have their own Honor Guard and will provide for Military Funeral Honors. Many organizations staff a full squad for rendering Military Funeral Honors that includes folding the flag, presentation of the flag, Taps, and a 21 gun salute.

The effect of military service can be profound and lasting. There are a number of financial, social and health issues that result from military service. Some Wounded Warriors and Veterans who have a compensation rating of 100% P&T are unaware that Social Security may expedite the processing of their disability claims.

Benefits available through Social Security are different than those from the Department of Veterans Affairs and require a separate application.

The expedited process is used for military service members who become disabled while on active military service on or after October 1, 2001, regardless of where the disability occurs.

Starting March 17, 2014, veterans who have a VA compensation rating of 100% permanent and total (P&T) may receive expedited processing of applications for Social Security disability benefits.

What do I need to know about the VA & Social Security programs?

Both Social Security and VA pay disability benefits. However, their programs, processes and criteria for receiving benefits are very different.

A VA compensation rating of 100% Permanent and Total does not guarantee that you will receive Social Security disability benefits. To be approved for Social Security benefits, you must meet Social Security's definition of "disability." To be found disabled:

- You must be unable to do substantial work because of your medical condition (s); and
- Your medical condition (s) must have lasted, or be expected to last, at least one year or to result in death.

If you receive VA compensation, this will not affect your Social Security benefits.
