

WARRIOR to **CYBER WARRIOR**

EMPOWERING WARRIORS TO TAKE THEIR
SKILLS TO A NEW BATTLEFIELD

The Warrior to Cyber Warrior (W2CW) program is a not-for-profit entity within *Lunarline's School of Cyber Security*. This program provides Veterans with training, certification and a career path in the field of cyber security, a growing industry.

W2CW Program includes:

- Certified cyber security training
- Professional certification
- Security clearance for government initiatives
- Internship in the cyber security field
- Job placement upon completion of the program

W2CW students will also have access to the program's online community providing mentoring, peer support, and additional resources to address the body, mind, spirit, and family.

Learn anytime, anywhere

W2CW features Echo360's blended learning system that provides a combination of online and classroom training tailored to individual learning objectives.

The W2CW curriculum incorporates diverse instructional method including distribution via mobile technology, virtual environments and gaming.

The first cohort will kick off summer of 2012. This program is tuition free to qualified warrior students.

Lunarline and ECHO360 are fully committed to the support of our returning Veterans and Wounded Warriors.

Lunarline is a leading provider of cyber security solutions, specialized IA services, and certified security training to all US Federal Government (Civilian, DoD, and IC), as well as to customers in selected commercial markets. As a Service Disabled Veteran Owned Small Business (SDVOSB), its executives and employees have had first-hand experience in transitioning from warriors to cyber warriors. The not-for-profit W2CW program is a division of Lunarline's School of Cyber Security. All of the program's instructors and mentors have extensive cyber security experience and many are veterans.

As Service Disabled Veterans, we here at Lunarline are fully committed to this project, having gone through this particular transition ourselves. We know personally how important it is to use the very same values instilled in us through our experience with the Armed Services in our careers after returning home. Those values of honor, integrity, commitment, teamwork, and excellence are all used every day working in cyber security.

- Waylon Krush, CEO of Lunarline, Inc.

As a global leader in blended learning and lecture capture products, **Echo360** helps higher education institutions keep pace with modern students' learning needs through products that digitally record and upload learning content. Echo360 has been recognized with a Product Line Strategy of the Year Award from Frost & Sullivan and named a Visionary Vendor in Educational Technology by IT research firm Basex. Echo360's products facilitate better instruction for large collections of students, lower costs and enrich learning experiences by enabling students to easily access and share multimedia content. Through Echo360's platform, students can replay recorded sessions and review information from instructors online; at their convenience and across various devices.

We are thrilled to support the Warrior to Cyber Warrior project and proud to be able to enhance the education of these bright men and women who have served our country so faithfully. Participating in this blended learning environment will allow graduates of this program to achieve their goals rapidly and enter the work force with newly acquired cyber security skills that will help to keep America safe.

- Fred Singer, CEO of Echo360
